

AIA Miami Members Special Price Revit Architecture Essentials Training. Presented by Digital Drafting Systems.

Hosted by the

AIA Miami Chapter

275 University Drive, Coral Gables, FL 33134

May 11, 12, 13, 2011

9:00am to 5:00 pm

24 AIA CEU

Get up and running with an introductory 3-day course that will give you a solid understanding about BIM (Building Information Modeling) and the tools for parametric building design and documentation in Autodesk Revit Architecture software. Learn about:

- User interface
- Managing Views
- Parametric Modeling
- Automated Scheduling and much more.

You'll be working on a small project hands-on, progressing from schematic design through construction documentation, and finishing with design visualization.

Requirements - No previous experience. Basic Architectural Design and Drafting knowledge.

Space is limited to maximum of 8 people per class.
